IMPORTANT THINGS TO REMEMBER **51**

Message from the Dean

I am delighted to extend my congratulations, on behalf of the faculty, on your admission to the 22nd student intake of the Faculty of Information Technology, University of Moratuwa.

After spending nearly 13 years of your life in the process of learning and discovering novel concepts, you achieved a very high academic distinction by passing the GCE advanced level examination, and now you have entered the academic world of higher education with great expectations for your future. As a university having a vision to be the "Most globally recognized knowledge enterprise in South Asia", currently maintaining a higher rank in both academic and research disciplines among the state universities in Sri Lanka as well as other higher educational institutes. Your predecessors during the last couple of decades have greatly contributed to uplift the standards of the University. I hope that you would contribute even more.

You should remember from day one that you have earned this once-in-a-lifetime opportunity to make a difference for both your country and the rest of the world. This is not a standalone achievement, your parents, teachers, and a lot of other people have immensely contributed to come to this lifetime goal and achievement. Now you are a member of very proud family of University of Moratuwa. Keeping this firmly in your mind, you must get ready to go this journey, spend memorable these four years with your academic responsibilities and always be socially responsible.

Wishing you all success in life and be prepared to strive to achieve the maximum for your society, your country, and the world.

Mr. B. H. Sudantha Dean, Faculty of Information Technology
University of Moratuwa
